

# Personification

This is the art of applying a human trait or characteristic to a non-human thing.

# Personification

By using personification, we are able to give personality and an element of humanity to something that would otherwise lack one.

# **Personification**

This provides the reader with the ability to connect to and understand the thing on a deeper level.

# Personification

When used to personify objects in the setting or environment it enables the writer to provide a greater detail of atmosphere. You can make a location feel warm and welcoming or terrifying and threatening through personification.

*E.g. The trees waved at the tourists gently.*

*The door groaned in despair as they pushed their way through.*
